Kristalia is our creative refuge, where ideas sprout in a fertile ground of listening and understanding. The collaboration was born with the art direction of Condominio, a project that won us over with its 360° communication, from the showroom to the catalog, and was consolidated with the Fun-Go collection of coffee tables. Kristalia enhances every nuance of our work, with a unique attention to detail and sensitivity. A small detail, often neglected elsewhere, is captured and enhanced here, becoming an integral part of the project.

Kristalia è il nostro rifugio creativo, dove le idee germogliano in un terreno fertile di ascolto e comprensione. La collaborazione è nata con l'art direction di Condominio, un progetto che ci ha conquistati con la sua comunicazione a 360°, dallo showroom al catalogo, e si è consolidata con la collezione di tavolini Fun-Go. Kristalia valorizza ogni sfumatura del nostro lavoro, con un'attenzione al dettaglio e una sensibilità uniche. Un piccolo particolare, spesso trascurato altrove, qui viene colto ed esaltato, diventando parte integrante del progetto.

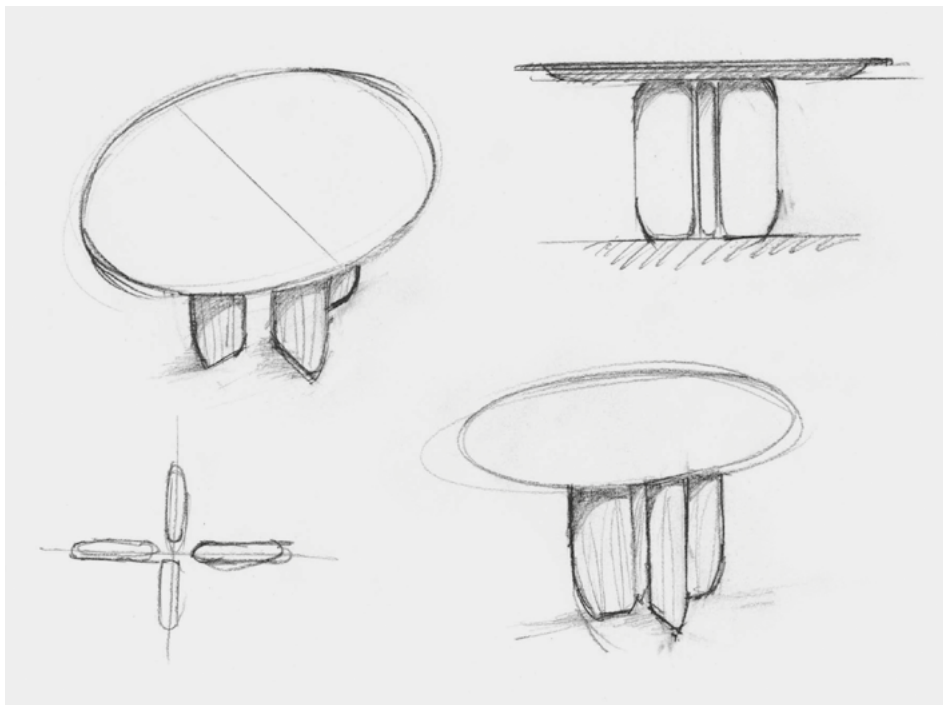

I met Ruggero Magrini when I was very young. He offered me the opportunity to work in support of designers, and then with experience and time I found my space among designers, at a time of great ferment and growth. What makes Kristalia unique is its approach: light but attentive to the essence of design. I have always shared with them the meticulous care for the projects and the curiosity towards the materials.

Ho conosciuto Ruggero Magrini quando ero giovanissima. Mi ha offerto l'opportunità di lavorare a supporto dei progettisti, e poi con l'esperienza e il tempo ho trovato il mio spazio tra i designer, in un momento di grande fermento e crescita. Ciò che rende unica Kristalia è il suo approccio: leggero ma attento all'essenza del design. Ho sempre condiviso con loro la meticolosa cura per il progetto e la curiosità verso i materiali. Dopo anni, sono lieta di aver rinnovato il dialogo con l'azienda, riscoprendo una sintonia di processi e visioni, arricchita dalle nostre esperienze. Lo sviluppo del tavolo allungabile Pala ha vissuto momenti di confronto costruttivo, come ogni progetto complesso. Ciò che mi ha colpito è stata la passione condivisa nella ricerca delle soluzioni.

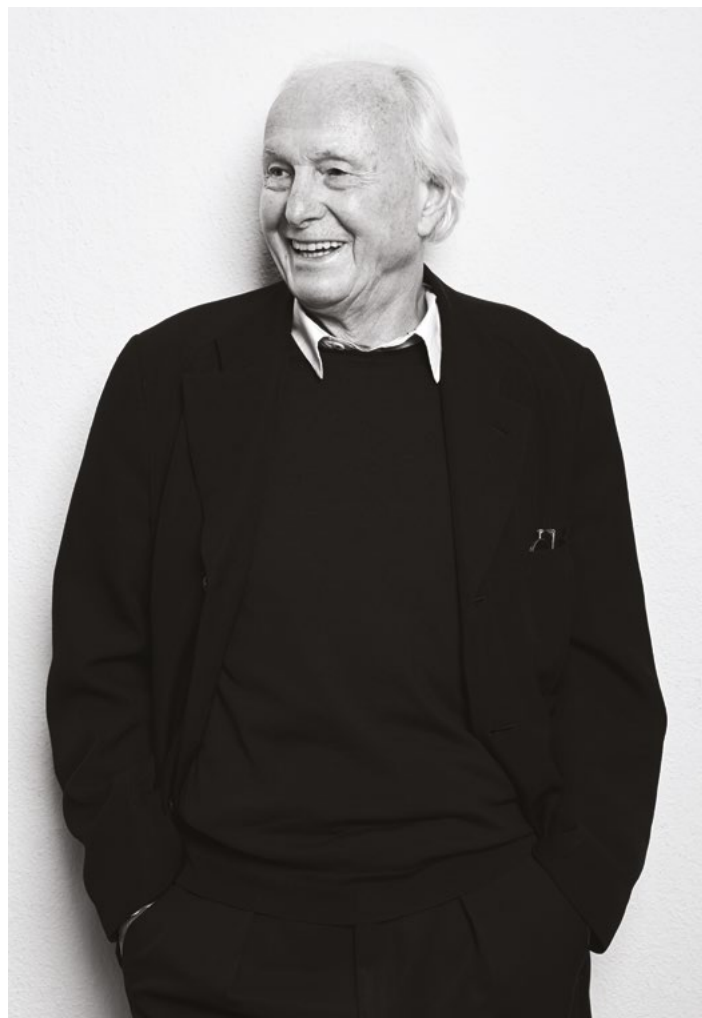

After years, I am pleased to have renewed the dialogue with the company, rediscovering a harmony of processes and visions, enriched by our experiences. The development of the Pala extendable table has experienced moments of constructive discussion, like any complex project. What struck me was the shared passion in the search for solutions.

My meeting with Ruggero Magrini marked the beginning of a deep partnership with Kristalia. We both had a multifaceted approach to design, and we both shared an inclination to explore different perspectives and challenge conventions. From this synergy, in 2009, a solid and lasting collaboration was born, which gave life to innovative and timeless products.

Il mio incontro con Ruggero Magrini ha segnato l'inizio di un sodalizio profondo con Kristalia. Entrambi nutrivamo un approccio multiforme al design, uniti da un'inclinazione a esplorare diverse prospettive e a sfidare le convenzioni. Da questa sinergia, nel 2009, è nata una collaborazione solida e duratura che ha dato vita a prodotti innovativi e senza tempo. L'ultimo è la riedizione della collezione AluAlu per l'outdoor e Palette, il tavolino/sgabello a tre gambe 100% in alluminio. Abbiamo sempre progettato pensando che i prodotti non solo arredano gli spazi, ma arricchiscono la vita delle persone, evolvendosi nel tempo.
